Carpet binder

Microscopic layer

Helps protection

Disinfects and protects carpets for up to 90 days

Activen™ Surface Concentrate and Protectant is a simple and effective way to kill germs and reduce odour in carpet for up to 90 days. It contains QUATs that are considered agents effective against coronavirus according to British Columbia CDC and are considered appropriate disinfectants with proven activity against enveloped viruses according to the WHO. Also it eliminates odour-causing bacteria and inhibits mould and mildew. Applied during regular steam cleaning applications, Activen™ bonds to carpet fibres creating a microscopic protective layer that kills germs and provides continuous ongoing protection for up to 90 days. It is ideal for use around children, pets and plants.

**Up to 90 day
