

VIROTRACK

Virus Transport Medium

VIROTRACK™

Specimen handling with confidence

Recognized standards

Reliability of results

Outbreak ready

OUTBREAK READY

The diagnosis of COVID-19 by culture relies on the collection of proper specimens, proper care to protect the virus in the specimens from environmental damage, and use of an adequate transport system to maintain virus activity. Collection of specimens with swabs that are toxic to either virus or cell culture should be avoided. Virotrack™ is a virus specimen handling that is reliable and is produced in compliance with international recognized standards.

STERILE A

Sterilized using aseptic processing technique

Caution, consult accompanying documents

Do not reuse
